MARLEY
Plumbing & Drainage Solutions

Product Datasheet
July 2011

The Marley solvent soil product range has been extended with the addition of these new 110mm products:

8-way collar bosses

The new collar boss offers the flexibility of 4 top and 4 side entries, allowing multiple ways of discharging waste.

Three variants are available:

Size (mm)	Description	Colour	Code	Price (£)
110	Solvent socket/spigot	G	**SCB41**	41.50
110	Double solvent socket	G	**SCBS41**	41.50
110	Solvent socket/spigot, (long spigot tail)	G	**SCBL41**	69.81

Benefits include:

- At only 70mm above floor slab, the Marley 8-way collar boss is compact and unobtrusive and it sits neatly on the floor slab in a typical installation. There is no need to cut into the slab and therefore no time consuming 'making good' required.
- Quick and easy installation, saving time and money
- Universal orientation for maximum flexibility
- Hole-saw locator on all bosses for ease of installation
- All collar bosses are individually pressure tested to ensure joint integrity
- Prevention of cross-flow to overcome installation problems imposed by the 200mm restricted zone and to allow multiple low level bath or shower waste pipes to be connected to the stack above floor level

The unique **SCBL41**, with a 350mm spigot tail, is even quicker to install as the spigot tail goes directly through the slab to be connected into a push-fit socket. There is no need to cut odd lengths of pipe during the installation process, reducing installation time. The 8-way collar boss with long spigot tail is pressure tested to ensure joint integrity.

Key to colour: G = Grey

More 110mm Marley solvent soil fittings, offering further options for the installer.
