

# Environmental policy

Marley Plumbing & Drainage is a leading manufacturer and supplier of products for the building and construction industry.

Marley Plumbing & Drainage is part of the Aliaxis group of companies, internationally recognised as a major global supplier of construction products.

The vast majority of products supplied by Marley Plumbing & Drainage are manufactured at the Company's head office in Kent, South East England.

Marley Plumbing & Drainage are certified to BS EN ISO 14001:2004, the worldwide recognised environmental standard.

The Company is actively committed to adopting good sustainable practices. In developing its business, products and services, Marley Plumbing & Drainage will:

- Comply with all relevant environmental legislation, codes of practice and standards relating to quality and the environment.
- Conform to the environmental policy of the Aliaxis Group of companies.
- Continually improve the Company's environmental performance, minimising any pollution risk and adopting best industry practice.
- Regularly review performance and set clear objectives and targets to ensure environmental impacts are managed and reduced.
- Increase the use of recycled materials where appropriate.
- Take positive action to reduce waste by promoting energy conservation and recycling.
- Ensure that employees of Marley Plumbing & Drainage have the necessary knowledge, resources and skills to implement the environmental policy of the Company.
- Communicate the Environment Policy of Marley Plumbing & Drainage to suppliers, contractors, customers and other stakeholders to share in the Company's aim of excellence in environmental management.
- Consider the needs and expectations of all customers and other stakeholders.

The Company operates a quality management system which meets the requirements of BS EN ISO 9001:2000
